A CONTAINER IS A PROMISE

Every drum of hardener, every litre of solvent, every batch of coating trusted to arrive exactly as it left – sealed, stable and uncompromised. That trust lives or dies at the seam of a tin.

For more than four decades, **Swastik Containers** has manufactured that trust – quiet, exacting, dependable work, repeated a hundred thousand times a day.

We don't simply make tins.
We make certainty.

OUR STORY

In 1978, **Mr. Chandrakant Choksi** created a tin container small enough to fit in the palm of your hand: a single tinlet of kajal. Most would have seen it as a humble product. He saw it as a proving ground—master the smallest tinlets in the market, and no can would be beyond your capability.

He was right.

India's pharmaceutical industry came first, selling its ointments and balms in Swastik tinlets. Then came the edible oil industry—and with it, a testament to our consistency: 25 to 30 million Newman caps every month, year after year, without missing a beat.

Soon, the toughest judges in packaging—multinational solvent and adhesive companies—trusted our cans for their PVC solvent cements. The automotive and paint industries followed, using our round and rectangular brake oil cans and PU hardener cans.

Today, three generations of the Choksi family run Swastik together—founder, son, and grandson, seated at the same table—producing over 100,000 containers every day.

The ambition that transformed a single tinlet into one of India's most formidable metal packaging companies is now focused firmly on the world.

FOUR DECADES OF DOING ONE THING EXCEPTIONALLY WELL

THE JOURNEY

1978 – Founded with one product: the kajal tinlet

Pharma – Tinlets for ointments and balms

Edible oil – Newman caps, 25–30 million a month

Chemicals – PVC solvent cement cans for multinationals

Auto and paint – Brake oil cans, PU hardener cans

Today – Three generations, 100,000+ containers a day, going global

"Master the smallest can in the market, and no can in the market is beyond you."

CAPABILITY & SCALE

48+

Years of expertise since 1978.

30k

Square metres integrated facility

300+

Skilled people on the factory floor

100,000+

Containers/day, at full capacity

Advanced forming and finishing lines let us turn around bulk requirements without surrendering the precision each can demands.

When the order is large and the deadline is real, scale is what keeps our promises.

VISION

To lead India's packaging sector – growing our presence, our brand and our reputation for high-quality products at a fair and honest price.

MISSION, VISION & VALUES

MISSION

To reach ever-higher levels of competence and build long-term relationships with our clients – through a skilled team, integrated systems and an unwavering assurance of dependability.

Our Speciality

DOME-TYPE HARDENER CANS

Purpose-built for PU and coating hardeners

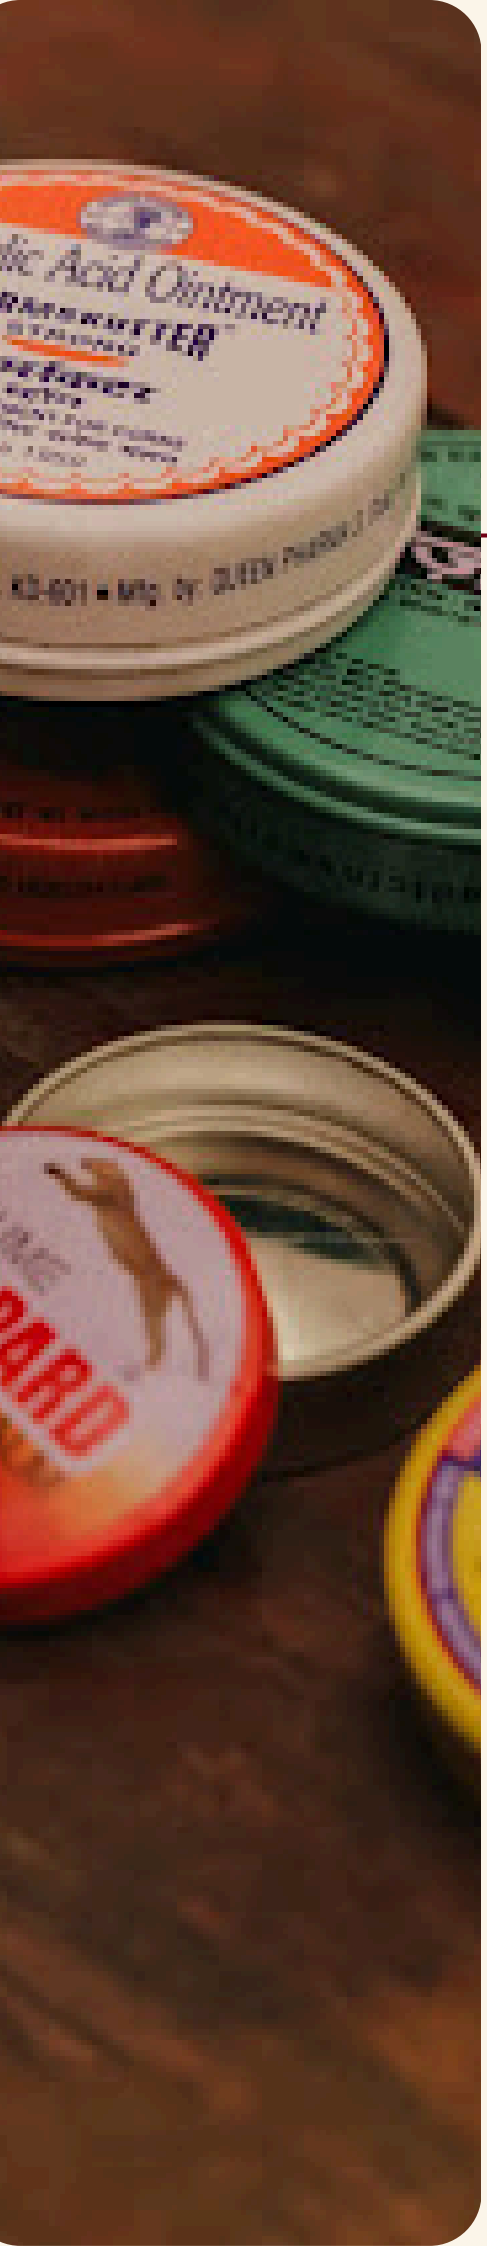
Leak-proof and corrosion-resistant construction

Precise, consistent lid fitting and secure sealing

Available across a range of sizes

Trusted in automotive & industrial coatings

The Product Cataloge



PAINT & COATING SOLUTIONS

01 **Dome-Type Hardener Cans**

Flagship closure system for hardeners and reactive coating components, sealed to perform every time.

02 **PU / Thinner Cans**

Built for polyurethane systems and thinners, with secure closures that contain volatile solvents safely.

03 **PVC Solvent Cans**

Engineered for PVC solvent cements and aggressive chemistries, with robust seals and applicator options.

The Full Range

01 **Newman Caps**

Push-fit closures that seal with a dependable click.

02 **Balm Tinlets**

Compact, polished tins for balms and salves.

03 **Brush-In Cans**

Brush-in-cap cans for adhesives and touch-ups.

04 **Rectangular Cans**

Space-efficient tins for oils and specialty liquids.

The Full Range

05 **Paint Cans**

Round, lever-lid cans to coating-trade standards.

06 **Brake Fluid Cans**

Sealed cans for automotive fluids and safety.

07 **Screw Caps**

Threaded, resealable closures for secure storage.

08 **Bericaps**

Tamper-evident, leak-tight closure cans.

BUILT FOR EXPORT READY TO SHIP

Our facility in Vasai, Maharashtra sits within reach of India's largest container port – Jawaharlal Nehru Port (JNPT/Nhava Sheva) – giving our export customers fast, reliable access to shipping lanes serving North America, the Middle East, Latin America, Africa and Southeast Asia.

- ☑ Proximity to JNPT (Nhava Sheva) – India's #1 container port
- ☑ Export packing: seaworthy palletizing, shrink-wrap, container-optimized stacking
- ☑ Full export documentation support (commercial invoice, packing list, COO, BL coordination)
- ☑ Prime electrolytic (ETP) tinplate sourced from certified domestic and international mills
- ☑ 100% leak testing on every can before dispatch
- ☑ Flexible Incoterms: EXW, FOB Nhava Sheva, CIF on request

WHO WE SERVE

Trusted across industries that can’t compromise

- Paint & Coatings
- Pharmaceuticals
- Automotive Refinish
- Pesticides & Agro
- Food
- Petrochemical

WHY SWASTIK?

Reliability you can schedule production around.

Trusted across the industries that can't compromise on packaging – and delivered, on schedule, every time.

OUR SUPPLY COMMITMENT

Ongoing supply to leading paint companies

Consistent quality & finishing, batch after batch

Custom printing and branding on can

Delivery schedules we commit to and keep

Support for urgent requirements, on availability

MADE TO YOUR SPECIFICATION

MATERIALS & QUALITY

- 100% prime electrolytic tinplate (ETP).
- Tinplate thickness/temper options to suit product chemistry.
- Interior lacquer options for solvent, water-based and reactive chemistries.
- Incoming raw material inspection, in-line production testing, and 100% leak testing of finished cans.

CUSTOMIZATION

- Custom sizes and capacities.
- Multi-colour offset printing and branding directly on can.
- Custom closures: screw cap, Newman cap, lever lid, dome, tamper-evident.
- Low trial-order MOQs for new export customers to evaluate quality before scaling

A HOUSE IS MEASURED BY WHAT IT GIVES BACK

For years, our founder Mr. Chandrakant Choksi has quietly served his community – **offering a traditional wellness remedy,** free of charge, to all who seek it, every Sunday morning in Mumbai.
